

CITY OF STARKE
Water System
P.O. Drawer C
Starke, Fl. 32091
(904) 368-1350

Dear Resident,

The City of Starke water system will be delivering sample kits for the triannual Lead and Copper survey on Wednesday, September 25, 2019 to designated sampling site homes. **(NOT ALL RESIDENTS WILL RECEIVE TESTING KIT'S)**

Please read the instructions carefully before sampling.

The samples will be picked up on Thursday morning September 26, 2019 after 9:00AM. Please put completed samples by front door.

The sample kit and collection information will be left at the entrance to your home. Please check for it Wednesday September 25, 2019.

These samples are being collected to determine the contribution of faucet fixtures and household pipes to the lead and copper levels in tap water. This sampling effort is required by the **EPA & Environmental Protection Agency**, and is being accomplished through the cooperation of homeowners and residents.

Thank you for your cooperation on this requirement by law and to help provide quality water to our residents on City of Starke potable water system.

If you have, any questions please feel free to call me at 368-1350 between 8:00 AM and 5:00 pm Monday thru Thursday.

Kyle Jerrels
Water Treatment Supervisor
