City of Starke Water System
P.O. Drawer C
Starke, FL 32091
(904) 368-1350

Dear Resident,
Employees with the City of Starke drinking water system will be delivering sample kits for the triannual Lead and Copper Survey on Tuesday, August 30th, 2022.

Please read the instructions carefully before sampling. Samples will be picked up on Thursday, September 1st, 2022 after 9:00 AM.

If you are not able to sample during this time frame, arrangements can be made to pick up the samples at a later time. The sample kit and collection information will be left at the entrance to your home. Please be sure to check for it Monday.

These samples are being collected to determine the contribution of faucet fixtures and household pipes to the lead and copper levels in tap water.

This sampling effort is required by the Environmental Protection Agency, and is being accomplished through the cooperation of our homeowners and residents.

Thank you for your cooperation in this study.

Please contact our Water and Wastewater Superintendent Kyle Jerrels at kjerrels@cityofstarke.org with any questions.
